## Foreword from the Managing Trustee

**We** are extremely humbled and grateful to all those who contributed to our journey in 2019-2020, I would like to begin by expressing my profound gratitude to all the families in the Uttarakhand region who believed in us, teachers who have been a constant support, school administrations who made this happen, students who keep motivating us, volunteers of AITYS and more importantly our sponsors who have always been there for us.

As our initiatives continue to grow, our associations with people and Corporates strengthen, we find more stakeholders who are happy to participate in our initiatives in whichever possible capacity. This has not only propelled encouragement within our team but also added another layer of belief in our initiatives and its beneficiaries – the people of Uttarakhand.

As we worked through 2019-2020, three major aspects have evolved within our initiatives which have given a stronger perspective of working for the current year. These factors have brought an improvement in our processes, making them effective, robust and transparent:

- *Our reach:* It gives us immense happiness and reassurance, when people from beyond the scope of our operations take notice of the hard work done by the team. During the end of 2019 and early 2020, School Principals of three government schools (outside our operational areas) approached us during our field visit and requested to sponsor their schools as well.
- *Sponsorship eligibility criteria:* While the number of school children benefiting from education sponsorship has steadily increased over the years, we moved to modify one of the eligibility criteria. This change was made to ensure that the initiative is taken seriously by both the parents and the school children so that it doesn't lose its value.
- *Corporate sponsors:* One of our corporate sponsors signed up to sponsor two government schools. Having been associated with us for over a year, they decided to extend funding for a bigger and better cause. Such a move from this sponsor has not only allowed us to facilitate a better study environment for school children, but also will prove to be a model for other corporate sponsors to follow.

Our focus in 2019-2020 was to increase infrastructure and healthcare contributions, we also continued to keep up to our promise of successfully delivering warm clothing - (tracksuits, sweaters, caps, and shoes) second year in a row.

As the team continues to work hard on increasing the reach of our initiatives while making sure that our base objectives are re-visited and strengthened as required. It is essential to re-engineer our method of working and concepts as times change and the scale of impact widens.

With the pandemic restrictions striking in March 2020, we have had to make drastic course corrections in our manner of working and implementing the initiatives. Communicating with the stakeholders in rural Uttarakhand has increased from remote locations as the feasibility of visiting has almost nullified due to lockdown restrictions. Our team members have been working diligently from their homes ensuring the initiatives do not take a backseat. The pandemic will not be a deterrent to our endeavour to reach and help the people of Uttarakhand.

Once again, I extend my heartfelt gratitude to our sponsors, the AITYS team and the people of Uttarakhand who, together, continue to give strength and put their trust in our work.

**Madhu Chowdhry**

Founder and Managing Trustee

# ABOUT AN INITIATIVE TOUCH YOUR SOUL

An Initiative Touch Your Soul (AITYS) is an all-volunteer charitable trust, helping the underprivileged and working towards providing them with a better life. AITYS was founded by Madhu Chowdhry in 2012, with the belief that “No one should be deprived of education and basic healthcare facilities because of poverty.” The intended aim is (but not limited) to provide education sponsorship for children, infrastructure support for schools and free medical camps for the villagers.

Over the years, AITYS has grown organically and gained success in all its initiatives. Since its inception, AITYS has conducted 68 medical camps across 337 villages, treated more than 15788 people in the region and completed 3497 annual education sponsorships for students.

The reach of our initiatives is primarily focussed in the area of Pauri Garhwal of Uttarakhand state. The epicentre is in the region between Devprayag and Pauri. AITYS today supports 40% of higher secondary schools in this region.

## VISION

**No child should be deprived of Education due to poverty.**

## MISSION

**To inspire hope and help the underprivileged living in the rural areas of Uttarakhand to achieve their true potential.**

## OBJECTIVE

**To enable completion of secondary education by all school children, upgrade school infrastructure with modern amenities and provide preventive healthcare for all students and the local population of the area ensuring the rural urban divide is bridged.**

## OUR GOALS

The goals and objectives of the specific project fall within the purview of larger objectives of AITYS. The goal is to aim for an equitable approach towards all students, the school and the local community at large through the various elements in our initiatives.

The specific objectives of the project are:

- To promote completion of secondary education to counter the dropout rate in schools.
- To help weaker and marginalised students in school through scholarship opportunities.
- To promote preventive health care to all students and local population of the area.
- To upgrade school infrastructure with modern amenities to help bridge the gap between the urban and the rural opportunities in education.

# Background and Premise of our Initiative

As per the department of Rural Development of Uttarakhand, 66% of the total population of Uttarakhand lives in the rural areas (more than 80% in the hill districts) making development and poverty a continuous deterrent. The difficult mountain terrain and dispersed population in the mountain regions adds to the challenges of sustained and rapid development.

Given the large coverage of the Uttarakhand region, the 360 degree understanding by AITYS has been achieved over a span of 68 visits to the area since 2012 and interactions therein, with all the stakeholders including villagers.

In the year 2017-2018 we had reported that the drop out rate of dropout in secondary education in the state was as high as 12.42% as per the District Information System for Education (DISE, 2015-2016). As per the Secretary of State Education of Uttarakhand, in Pauri Garhwal the secondary school dropout rates decreased to 7.79% in 2018 (which is also lowest in the state) validating the work of AITYS over the years in that area. Almora district, however, stood second after Champawat district, with a dropout rate of 15.20%.

Every year of reduced education directly impacts individuals ability to earn and has a cascading effect on one's personality, livelihood, and sustenance. We have progressed from understanding these issues and have aligned our initiatives to identify and bridge these substantial gaps as a part of our vision. AITYS therefore, continues to invest in three primary initiatives in boosting the retention of children in schools through their secondary education years. Our emphasis in 2019-2020 continues to be on a child's character and perspective to weave the fabric of a stronger, healthier society in future. Therefore, our initiatives are essential at helping the affected families in the region with medical aid, education sponsorship and infrastructure support to schools in order to address the gap of quality education and healthcare. Our area of operations around the three pillars specifically aim at addressing the gap of quality education and preventive healthcare through:

- **Education Sponsorship Projects**
- **Free Medical Camps for preventive health care**
- **School Infrastructure Support Initiatives**

The Universe does not just give you abundance for yourself, but it makes you the medium for abundance for others. It is therefore your responsibility to channel a part of that abundance to the less fortunate and help them with their sustenance.

**-Madhu Chowdhry**

# Transforming Lives In Uttarakhand

# Area of Operation

Located partly in the Gangetic plain and partly in the northern Himalayas, Pauri Garhwal district encompasses an area of 5,230 square kilometres in the northern state of Uttarakhand, India. AITYS' area of operation has its epicentre in the area between Devprayag and Pauri.

By the virtue of the work done in the past in Pauri Garhwal, AITYS was constantly being approached by School authorities of the Almora districts for support. Having served the people of Pauri for about 3+ years, it was about time that AITYS looked to expand its operations. We felt it was our moral responsibility to take on this expansion.

# New Area of Operation

Almora is the largest district of Uttarakhand and is geographically well placed with a panoramic view of the Himalayas. However, the dropout rates in School gives us another picture.

In August 2019 cloudburst in Chamoli district caused collateral damage in the upper regions of Uttarakhand, displacing many families both physically and financially. The impact of which was felt in the lower regions of Uttarakhand. Schools and healthcare were the most affected areas of life in the otherwise famous scenic region

# The Stakeholders of Our Initiative

## School as Partners

Government schools act as the primary hub for facilitating interaction with students and their parents, enabling reach to villagers from all adjoining areas. Through 17 schools AITYS reaches out to 337 villages in the region of Pauri, Uttarakhand. The proactive school teachers and/ or village representative coordinate with students and villagers to collect all forms, conduct spot checks before submitting them to AITYS office as well as help spread the word for the prescheduled free medical camps to ensure that maximum villagers visit and benefit from them.

## AITYS as Facilitators

During each visit the school staff is advised by the AITYS team on documentation, process and timelines regarding submitting applications for the next biannual requirement. Coordination begins over the phone to ensure that the applications come through. While the task may sound simple, due to network connectivity, mismatch in schedules and availability between volunteers and school officials makes this a tough task. Logistics are planned almost ten months ahead with regards to the goods being sponsored (T-shirts, shorts, socks, shoes, track suits etc). The infrastructure team of AITYS ascertains sizing and quantity requirements for each school. It is then procured from various sources, organized, labelled, packed and eventually transported and delivered to each school.

## Preventive Healthcare:

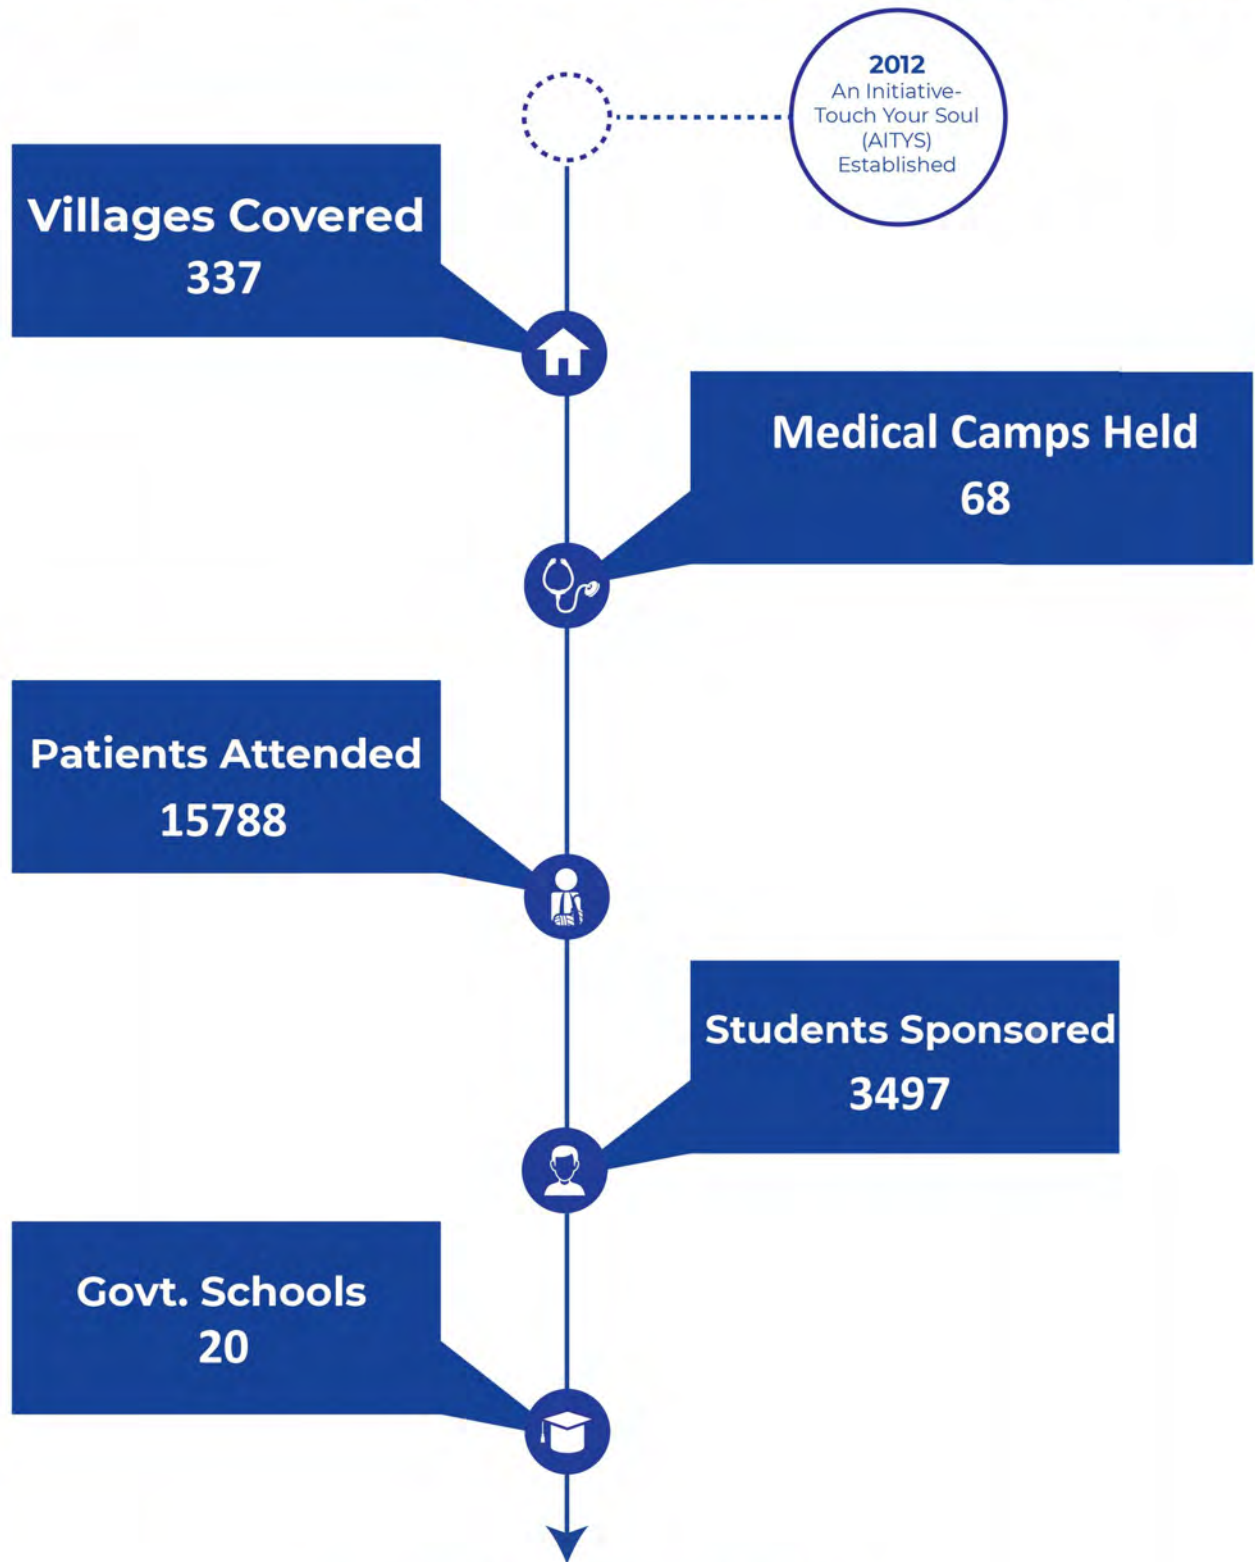

Professionally qualified doctors have been core members of AITYS medical camps from its inception who volunteer selflessly with great dedication through all 68 visits. AITYS reaches out to the local population through proactive school teachers/ village representatives (Pradhans etc.) to all the neighbouring villages to make the local population be aware of the dates for medical camps ahead of schedule, through display of posters and word of mouth for maximum participation. On the designated day the doctors give free consultation to each visitor along with non-prescription medicines. These medicines are given free of cost to each villager. It's the consistent presence of a dedicated doctor that has enabled AITYS to build a significant understanding of continued medical needs of the entire region and then help AITYS stock up with medicines accordingly for the subsequent visit. Over time, through the consistency and goodwill of our initiatives, an increasing number of families have reached out for support from remote areas for help, thus

increasing the number of applications for school sponsorship and attendance of medical camps each year.

## **Donors and Sponsors as Enablers:**

Funds through friends and family have helped till now. However, looking at the enormity of support needed, AITYS has been able to fund these initiatives with the help of Individual and Corporate Donors in the last three years in order to benefit a larger number.

# Achievements Since 2012

As on 31st March 2020

### As on 31st March 2020:

	Villages Covered	Medical Camps	Patients Attended	Students Sponsored	Government Schools
2015-2016	117	40	7918	466	5
2016-2017	165	49	9867	983	10
2017-2018	210	53	10705	1621	14
2018-2019	219	62	13330	2606	19
2019-2020	337	68	15788	3497	20

# Education Sponsorship

It's a given fact that children's education is directly impacted by the financial restraints of their parents. We have come across multiple stories of children who are now being fostered by relatives and even aged grandparents who struggle to make ends meet on a daily basis. In rural regions of India, the children, especially the girl child, are expected to give up dreams of completing their education against the needs of the family.

With every visit AITYS realises that poverty is an ongoing phenomenon, which unfortunately, is complexly woven into the socio-economic lives of the villagers in Uttarakhand. Not just Pauri and Almora but also the surrounding regions in the interiors of Uttarakhand remain in poverty and neglect.

In the year 2017-2018 the District Information System for Education (DISE, 2015-2016) reported that the dropout rate in secondary education was as high as 12.42%. As per the Uttarakhand Human Development report of 2017-2018, an alarming 38% of the students studying in middle school were reported to have dropped out. Out of these, 25% students cited "supporting their families for livelihood" as the reason behind quitting school. What is more concerning is that from 2015-2016, the dropout rate of upper primary students rose from 2.73% to a miserable 28% in 2020. These students also reported working within homes or outside of Uttarakhand.

And that is why AITYS strives hard to obtain funds to help children continue and complete their secondary education. However it is not just the funding which is important. It is equally important to make the beneficiaries understand the value of the hard work behind the initiative.

Parents of all sponsored students have been ecstatic to see that the Education Sponsorship Initiative continues its grant year on year. However, as per the feedback given by the School Principals and Teachers, this may not have a healthy impact as parents will take for granted that the education funds will be received by default. In order to appreciate the value of this AITYS initiative, all stakeholders from schools have advised our team that the students' sponsorship eligibility percentage be raised from 50% to 60% passing aggregate (of the previous academic year). This will help ensure that parents encourage their children to study diligently and harder to obtain the scholarship. After evaluating this feedback, AITYS team has decided to implement this criterion with immediate effect as we prepare for initiatives' in 2020-2021.

Within the Pauri region, AITYS initiatives have covered 40% of the government schools in the region which offer secondary education. In the years to come, this percentage will rise as schools within the Pauri region (further in the interiors) have learnt of us and our impact. They have requested that their schools be taken under the umbrella of our initiatives.

While this initiative continues to run successfully, we did see a slight drop in the number of sponsored students during the 2019-2020 academic year. Each year, AITYS volunteers have to diligently invest many hours in screening applications. Multiple applications received from schools for their students were incomplete in either details or proper supporting documentation. As a result of which more than 100 applications were rejected. Principals and points of contact in schools were again strictly advised that application forms need to be correctly filled and all supporting documents need to be made available as well. This important aspect was discussed in detail with examples during the visits AITYS team conducted during the previous academic year.

We continue to maintain the standards of assessment and eligibility for education sponsorship. Scanning each detail of all applications and sponsoring children who are both needy and deserving.

## Key Deliverables:

- Better attendance and increase in enrolment.
- Incentivise through awards programs to encourage better academic scores.
- Improved and interactive learning.
- Better academic performance.
- Creating opportunities in sports and extracurricular activities.
- Boost the confidence in all students.
- Better quality of uniforms, sportswear and other apparels.
- Improvement in physical growth and development (multivitamins and deworming).
- Maximum contribution to help arrests the dropout rate at secondary school level.
- Ensuring every year of added education in a child's life adds to her/ his ability to earn in later years of their lives (as per World bank Capital Index Report 2018).

**AITYS Education Sponsorship Per Year**

**Schools Supported by AITYS**

## EDUCATION SPONSORSHIP

AITYS framework and methodology

### Total number of students sponsored in the Academic Year 2019-20

S.No.	Program	Students
1	Education Sponsorship - Rural	882
2	Other Education Programs College, Vocational etc.	09

We continue to maintain the standards of assessment and eligibility for education sponsorship. Scanning each detail of all applications and sponsoring children who are both needy and deserving.

# Rewards Program

Last year, in November 2018, we introduced the rewards program in collaboration with Sarita Handa Exports Pvt. Ltd. under their corporate social responsibility wing and announced that any student studying in class 8th to 12th who scored more than 80% in the previous academic year will additionally receive a bonus award.

We are happy to announce that in 2019-2020 alone, AITYS distributed 891 cheques, and a total of 70 children received the bonus rewards this year. CSR with Sarita Handa Exports continues to be our key support in driving our education initiatives in the future as well.

# Helping Hands Initiative- A Student Wellbeing Program

Our 3rd pilot last year - the Helping Hand Initiatives, was extremely successful. After multiple interactions with students, teachers, and parents, the team understood that just providing for education was not enough to ensure students' holistic development. A finding that was concerning and widespread across the rural school students was their inferiority complex or the lack of confidence when they came in competitive situations with Urbanites.

Teachers and Principals shared multiple instances where the students had the potential to achieve laurels but due to lack of confidence, shabby clothing, lack of grooming, etc., they felt less or inferior. This was an area that the team at AITYS wanted to work on and ensure that our efforts made a difference in the personality of these budding minds.

What began as a pilot, is now an established and successful program that AITYS would continue in the long run. With the support of our Sponsors in 2019-2020 we continued to provide for 1641 students packs of t-shirts, multiple pairs of socks, two sweaters, and tracksuits for students. Providing multiple units, ensured that students could wash and use their tracksuits etc., and did not have to keep using the same day-in and day-out. With this we ensured that hygiene as a habit and practice is subtly inculcated in the minds of the young learners early on.

Today we are humbled to know of all the laurels that students won at multiple tournaments and competitions with this little change in their life.

# Multivitamin Pilot Project 1

In the Medical Camps conducted by AITYS in Rural Uttarakhand, our team of doctors had noticed over time that the growth & immunity level in children left much scope for improvement. While this was a big finding, AITYS was advised to initiate a Pilot Program under which multivitamins would be regularly provided to school students and the results would be observed.

AITYS proposed this to Sarita Handa who agreed to sponsor the same under their CSR program to two schools (GIC Sajwankanda & GIC Kaleshwar). In addition, deworming tablets were already being provided by our NGO to the schools.

Our teams back calculated the multivitamin requirement per child along with our Doctors and in November 2019 these school students were provided with sufficient multivitamins for the next 12 months. We are happy to report that 4250 bottles of multivitamins were distributed. Within 2-3 months, the school staff reported improved attendance and better attention span in the students in general. This was especially notable due to the ongoing winter months where students used to often miss school due to cough, cold and associated illnesses. The schools felt there was much benefit and requested AITYS to continue with giving multivitamins to the students in future.

Due to the lockdown because of the COVID-19 pandemic from the end of March onwards, the students stopped attending school, but continued taking the multivitamins given to them till much later in 2020. Based on the success and evident findings AITYS decided to expand the Multivitamins program to more schools of Rural Uttarakhand under our area of operations.

# 15788

**Patients** attended till  
2019-2020

conducted by AITYS

**337 Villages**  
covered for medical camps

**4250 Mutivitamin Bottles**  
distributed in 17 schools

**1702 Students**  
received multivitamin doses

# Infrastructure Support Initiative

As per our research and observation, the premises of government schools in Uttarakhand are in serious need of uplifting. Therefore in 2018-2019, we started pilot projects to identify areas of intervention that would be required to make visible changes that benefit the studying environment for school children and staff alike.

In 2019, we funded construction of washrooms for boys consisting of a proper enclosure, cubicles, and an overhead water tank at GIC Kholachauri. In our earlier visits to this school, we observed that students did not have a washroom and all sanitary needs were carried out in the wilderness next to the school. Such practices are not only unhygienic, but also unsafe. Similar initiative was also undertaken at GIC Sajwankanda where the school girls were going through a similar predicament. This requirement for the Girls washroom has been identified by AITYS for execution and completion in 2021.

Over the years, GIC Sajwankanda has turned out to be one of our best model schools as they most appreciate our funds and donated items with efficiency and value. From part of the funds facilitated to them, the school staff furnished their 'E-Room' which consisted of new furniture, AITYS donated computers, projectors, display screen and rugs. Few of the teachers have volunteered to teach children multiple subjects using interactive media in the E-Room.

With the current government emphasizing on environment friendly techniques for livelihood, AITYS deems it their responsibility to add this ideology of promoting sustainable thinking with an aim to replace plastics across our area of operations and beyond with our initiatives. Therefore, during 2019-2020, 16 government schools received steel lunch boxes and steel water bottles for not only the children but also the school staff. Throughout the last six months of the past financial year we have received photographs from schools showing excited children using these useful items, now realizing that these are long lasting and environment friendly options than using plastic.

Such pilot projects were successful as the results were shared with some of our corporate sponsors. Sarita Handa Exports Pvt. Ltd., one of our consistent sponsors, came forward and agreed to sponsor two of our government schools from Sajwankanda and Kholachauri. The sponsorship of these two schools will be for a period of five years, covering not only education sponsorship for all children in the school, but also nutritional support, ancillary items support and the physical infrastructure improvement of the school premises.

With our partnering sponsors for funding (five years) the two government secondary schools, we are already observing desired improvements. School principals have reported that owing to the monthly nutrition supplements being given to children, the overall

student attendance has improved along with their immunity levels. In order to ensure the success of the project, AITYS made schools as medium through school teachers and principals to administer daily dosage of multivitamins to children and ensure execution of our strategy successfully.

The government schools of Sajwankanda and Kholachauri are only the beginning. It is imperative that the children be given a better standard of education. While the government cycle of development chugs slowly towards improvement, we cannot wait for generations of school children to continue experiencing primitive practices.

Starting 2020, our focus now will be to add more weight to this initiative, which will not only cover the education sponsorship program but also the nutrition care that the school children need. And this is where current sponsors need to contribute as it provides a more holistic support to the system. AITYS team's efforts will now focus on targeting CSR programs and funds of organizations throughout the country in order to propel this initiative further.

# Library Replenishment

Library replenishment continues to be AITYS' dedicated efforts towards ensuring quality education and bridging the gap between the rural and urban. In May and November 2019-2020 more than 5500 educational books -including story books, encyclopedias, and other subject matter related books, were provided to 12 schools.

# Medical Camps

This oldest initiative of ours has been the connecting bridge between us and all external stakeholders. From the villagers, parents and children to even school administration and staff, everyone has experienced its benefits. It has allowed us to be heard and paved the way for our other initiatives. Free medical camps conducted by AITYS continue to show the alarming situation in the remote regions of Uttarakhand. Concerns regarding inaccessibility of free medical care to the poor people within remote regions in the state continue.

Lack of clean water in the region still results in a high number of villagers complaining of digestion and intestine related problems and also skin infections. As almost all villagers are either daily wage labourers or farmers, there is a high demand for painkillers and pain relief ointments due to the physical exhaustion in their profession. Non-prescription medicines are also in high demand for curing common cold, cough, allergies and fever. For the aged villagers blurry eyesight, drop in energy levels and joint aches continue to be the biggest problems.

In our previous camps and visits to government schools we observed that the students did not have sufficient stamina owing to poor eating habits and financial restraints amongst others. Therefore providing multi-vitamin syrups and de-worming tablets during each medical camp has become crucial for a healthier future.

## Free Medical Camps conducted in 2019-2020

#	Dates	Location	Region	Attendees
1	03-May-2019	G.I.C. Kaleshwar	Pauri	575
2	04-May-2019	G.I.C. Sajwankanda	Pauri	356
3	18-Nov-2019	G.I.C. Kholachauri	Pauri	354
4	19-Nov-2019	G.I.C. Kaleshwar	Pauri	336
5	10-Feb-2020	Majakhali Village	Almora	462
6	11-Feb-2020	Woodsvilla Resort, Digoti	Almora	131

## Attendees Vs. Medical Camps conducted

Year	Attendees Vs. Year	Avg. Attendees per Camp
2012-13	734	121
2013-14	2418	220
2014-15	2526	194
2015-16	2240	224
2016-17	1949	217
2017-18	838	210
2018-19	2869	319
2019-20	2214	369

# Volunteers

With the success of our initiatives, the roles and responsibilities of the volunteer group have increased. We have always ensured that our paperwork is in compliance with government directives and therefore documentation work has increased multi-fold. Also, AITYS needing a larger amount of funds to increase the impact of their initiatives means reaching a larger number of corporations for funding. This again requires more paperwork, documentation and preparation to submit Corporate Social Responsibility (CSR) related applications.

In 2019-2020 we welcomed new members to the team who will be assisting in documentation, analysis, sourcing and other social media related work. AITYS is glad to see the volunteer network slowly increase in count and in skill sets while coming together with the common aspiration of performing seva. In both the Pauri and Almora region we continue to have volunteers from the villagers who spread the word of our next visit ensuring maximum people avail benefit of our initiatives.

After adding a new set of volunteers, AITYS will now gear up to increase its presence in the web world and spread word of its successful initiatives using interactive media.

Thanks to these volunteers, AITYS continues to grow organically with efficiently designed and implemented initiatives, which are slowly making an impact on the ground level.

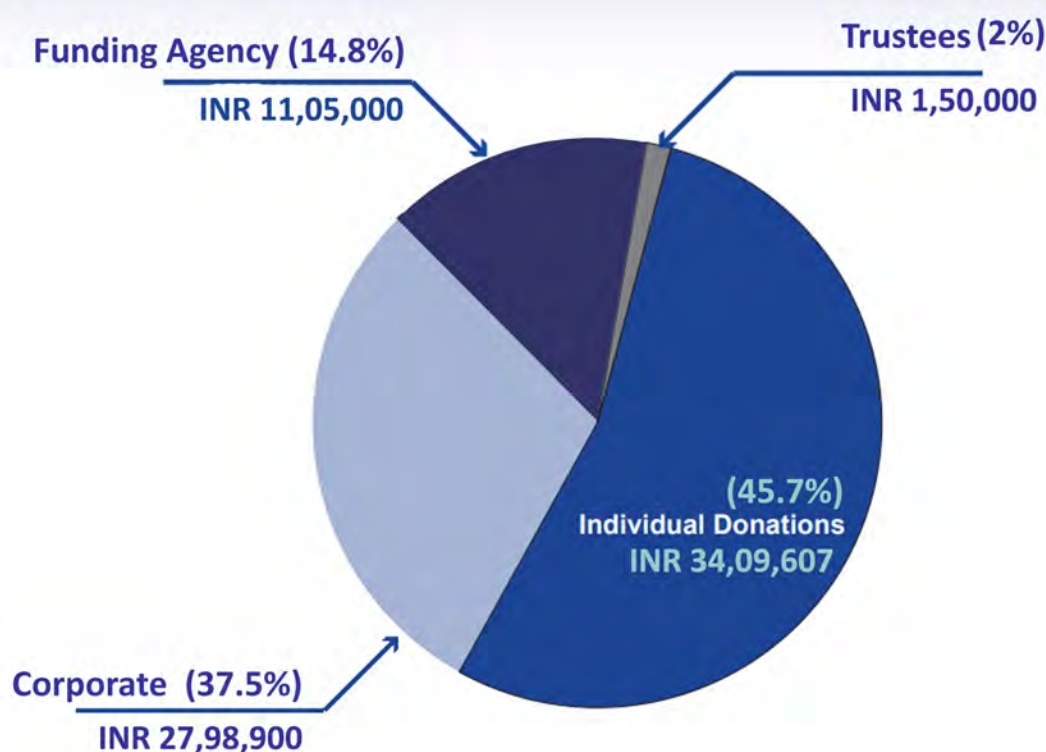

# Donors

Thanks to the incredible team effort by the Founder and volunteers of AITYS, we have been able to collate considerable funds in 2018-2019 to ensure all our three primary initiatives remain in momentum. Just like the previous financial years, the largest portion of funds is received from individual donors. The team has been pushing to present the agenda of AITYS at each and every occasion to help getting these funds.

This past financial year however has seen a rise in the donation from corporations. Thanks to the 'corporate social responsibility' wings of some corporates, we did receive a good jump from Rs. 8.4 lakhs (in 2017-2018) to Rs. 22 lakhs (in 2018-2019). The increase in funds from this type of contribution has been a great boost to the morale of all AITYS team members. With the success of our initiatives thanks to more funds, we endeavour that the corporate will increase the funding for the new financial year. This will greatly ease our dependency on individual donations which fluctuate every year.

AITYS team thanks to all the donors (corporate and individual) who have contributed to the best of their capacities and they encourage anonymity as the primary motive of funds is sewa and not campaigning

**INDEPENDENT AUDITOR'S REPORT**

**To the Trustees**

**An Initiative – Touch Your Soul**

New Delhi

**Opinion**

We have audited the accompanying Financial Statements of **An Initiative - Touch Your Soul** which comprise the Balance Sheet as at **31<sup>st</sup> March 2020**, the Income & Expenditure and Receipts & Payments Account for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Financial Statements give a true and fair view in conformity with the accounting principles generally accepted in India:

- a) In case of the Balance Sheet, of the state of affairs of the trust as at 31<sup>st</sup> March 2020;
- b) In case of the Income and Expenditure for the year ended on that date;
- c) In case of the receipts and payments account for the year ended on that date;

**Basis for Opinion**

We conducted our audit in accordance with the Standards on Accounting (SAs) issued by the Institute of Chartered Accountant of India. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the trust in accordance with the Code of Ethics issued by the Institute of Chartered Accountant of India together with the ethical requirements that are relevant to our audit of the Financial Statements under the provisions of the Act and the Rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

**Emphasis of Matter**

We draw your attention to Note No.4 of the financial statements about the prevailing COVID-19 situation across the globe including India and management's assessment of the impact of pandemic COVID-19 on its operations and financial statements for the year ended March 31, 2020, due to lockdown conditions and various restrictions including on travel imposed by the central/ state government(s) for which a definitive assessment of the impact is highly dependent upon the situation that may prevail in the subsequent period(s). Our opinion is not modified in this regard.

## **Responsibilities of those charged with Governance for the Financial Statements**

Those charged with governance are responsible for the preparation of these Financial Statements that give a true and fair view of the financial position and expenditure of the trust in accordance with the accounting principles generally accepted in India, including Accounting Standards, to the extent applicable, prescribed by the Institute of Chartered Accountants of India. This responsibility also includes maintenance of adequate accounting records for safeguarding of the assets of the trust and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, management is responsible for assessing the ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the entity or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the financial reporting process.

## **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose for expressing our opinion on effectiveness of the trust internal financial control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the trust ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the trust to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

#### **Report on Other Legal and Regulatory Requirements**

Further to the comments in para's above, we report that:

- a) We have obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purpose of our audit.
- b) In our opinion, proper books of account as required by law have been kept by trust so far as it appears from our examination of those books.
- c) The Balance Sheet, Income and Expenditure and Receipts and Payment Accounts dealt with by this report are in agreement with the books of account.
- d) In our opinion, the Balance Sheet, Statement of Income & Expenditure and receipts and Payment Account comply with the Accounting Standards, to the extent applicable, issued by the Institute of Chartered Accountants of India.

97, Mount Kailash, East of Kailash, New Delhi-110065

**SIGNIFICANT ACCOUNTING POLICIES AND NOTES FORMING AN INTEGRAL PART OF ACCOUNTS FOR THE YEAR ENDED ON 31<sup>ST</sup> MARCH 2020**

**A. SIGNIFICANT ACCOUNTING POLICIES**

1. The accounts are prepared on historical cost basis as a 'Going Concern'. Donations are accounted for on receipt basis and payments are accounted for on accrual basis except otherwise stated, following generally accepted accounting principles and practices and Accounting Standards issued by the Institute of Chartered Accountants of India for NGOs, wherever applicable.
2. Fixed Assets acquired / received in kind are directly charged to expenses accounts, however for the purpose of control, the same are recognized in the Balance Sheet through Contra entry.
3. Fixed Assets are stated as under:
  - a) Assets directly acquired – at purchase cost less accumulated depreciation.
  - b) Assets received in kind – at stated / estimated cost less accumulated depreciation.
4. Depreciation on fixed assets is provided as per written down value method as per the rates prescribed in Income Tax Act, 1961, however, the same is not claimed as expense in the income & expenditure account.

**B. NOTES TO ACCOUNTS**

1. The medicines and other related items acquired are charged directly to the expenses since as per the organisation, the same are for free distribution and not to be sold hence has no value for them.
2. There are no payments made to trustees as remuneration or otherwise except travel, boarding and lodging expenses in attending the day to day affairs and medical camps etc.
3. There are no employees in the organisation hence the provision of Gratuity is not applicable to the organisation and accordingly no amount has been provided for the leave encashment
4. The novel coronavirus (COVID-19) outbreak which was declared as global pandemic by the World Health Organization (WHO) on March 11, 2020 continues to spread across the globe including India resulting in significant impact on global and India's economic environment.

The Trust has assessed the impact of COVID-19, to the best of its information, on its operations, as well its financial statements, including but not limited to the areas of revenue, costs, operational controls and processes followed, debtors and other assets, as at March 31, 2020. Based on the overall assessment, the Trust is of the view that no additional provision needs to be created in books of account for the year ended March 31, 2020.

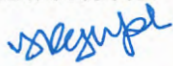

Further, there is no material impact on the financial statements due to the changes in the operational controls and processes followed by the Trust during the COVID-19 pandemic situation in the country considering the lockdown implemented w.e.f. March 25, 2020. The Trust will however continue to closely monitor any material changes to the future economic conditions that may have any significant impact on its business and financial position.

5. There is no contingent liability as on 31<sup>st</sup> March, 2020.
6. Previous year figures have been regrouped/ reclassified, wherever necessary
